

Arduino is an open-source electronics prototyping platform designed to make the process of using electronics in multidisciplinary projects in areas like Aero, Robotics, Remote Sensing, Interactive Art, etc. more accessible...

ARDUINO @ CEN

Summer Workshop - (11,14) June 2011

- Powering and Programming the Arduino Environment
- Analog and Digital I/O
- Serial Communication
- Interfacing Sensors and Actuators - RFID, GPS, GSM, Motors, IR, Temperature, Light, Sound..
- Wireless Communication
- Hands-on project
