

Amrita, US varsities sign MoU

TIMES NEWS NETWORK

Bangalore: Amrita Vishwa Vidyapeetham and University at Buffalo, USA, have initiated twinning programmes in management and engineering, the MoU for which was signed here on Saturday.

Three programmes are scheduled to commence this June/July. Of these, two are management and one is engineering. The first is a collaborative twinning masters programme in management. The second programme is a two-year part-time one designed for working professionals, especially for those in Bangalore, while the third is 'Master of Science in Embedded system-MSES'.

University V-C P Venkat Rangan said the MoU is for five years covering broad section of students. Satish K Tripathi, provost and executive vice-president, UB, said the university gets over 1,000 students for under-graduate and post-graduate courses from India. Also, Bangalore being an IT capital, it gives a chance for the students to come to Bangalore and learn about Information Technology industry, he added.
