Dear Colleague

We cordially invite you to the Pathology CME "Gastrointestinal and Pancreatic Neuroendocrine tumours (GPNET)" on 29th November 2014 at Amrita Institute of Medical Sciences and Research Centre, Kochi. This is being conducted as a pre-conference workshop of the 2nd Annual Asia-Pacific Neuroendocrine Tumour Society Meeting.

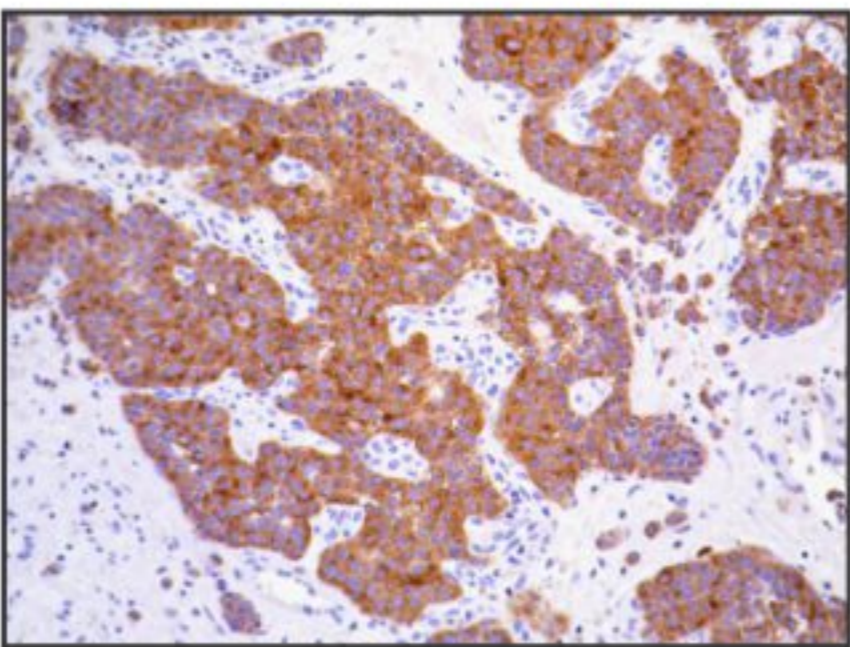

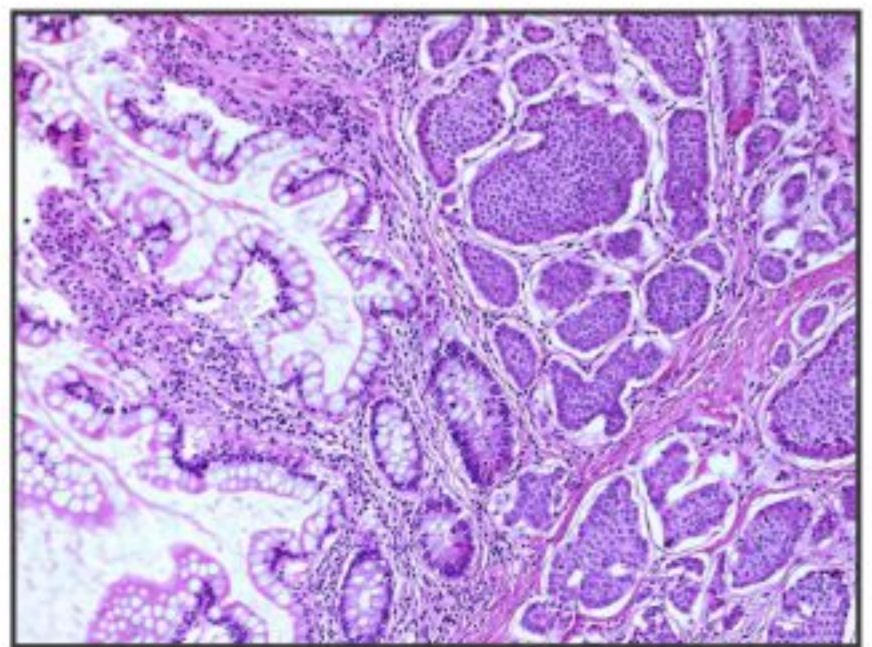

Neuroendocrine tumours are a relatively homogenous group of neoplasms, often associated with an indolent course. Their incidence is however rising. Successful management of these tumours is underpinned by sound understanding of the pathological process and a multidisciplinary approach.

This CME will provide a comprehensive update on the current concepts and practises focussing on the pathology of these neoplasms with clinical, therapeutical and radiological understanding.

We look forward to your presence and participation.

On behalf of the organising committee,

Dr. Roopa Paulose
(Organizing Secretary)

- 8:30 am** : Registration
- 9:00-9:20 am** : Opening Ceremony, Inaugural address
- 9:20-9:40 am** : Clinicians' perspective of GPNET
