

AMMA being conferred honorary doctorate at State University of New York at Buffalo

AMMA delivering keynote address at UN academic impact conference at New York

AMRITA
VISHWA VIDYAPEETHAM
UNIVERSITY

Established u/s 3 of UGC Act 1956

When we study in a college, striving to become a doctor, a lawyer, or an engineer - this is education for a living. On the other hand, education for life requires understanding the essential principles of spirituality. This means gaining a deeper understanding of the world: our minds, our emotions and ourselves. We all know that the real goal of education is not to create people who can understand only the language of machines. The main purpose of education should be to impart a culture of the heart - a culture based on spiritual values.

-AMMA
