Your answer in not more than 5 sentences:

Your answer in not more than 5 sentences:

Emotional Quotient

Total marks for the section: 5

Given below are two typical situations that you might have to deal with in college life.

Heated arguments with friends or subject instructors happen sometimes. Here is a class room situation involving a topic that you are passionate about. You and your friend are arguing for and against the issue. Your instructor is listening. You realize that temperatures are rising and the argument is getting pretty heated up. In a situation like this, you are given the following choices. Which one are you more likely to choose and why?

1. Call for a short break before resuming the discussion
2. Give in and apologize to end the argument
3. Start insulting the other person or find ways to somehow win the argument
4. Start speaking to the instructor and shut yourself down to the other person, you stop responding to the other person

Your answer in not more than 5 sentences:

Logic and reasoning

Total marks for the section: 5
