The Amrita Centre for Cybersecurity Systems and Networks under Amrita Vishwa Vidyapeetham is organising InCTFj '18, a two-month-long cybersecurity contest for school students from Class 8 to 12.

This is the third edition of the contest and the previous editions had seen participation of over 2,000 students from 19 States.

Top 50 students selected as part of the contest will be invited for a fully sponsored six-day cybersecurity training (Cyber Gurukulam) by Amrita University in December followed by the final round.

Students do not need any previous work experience or registration fee for entering the contest. The contest is coordinated and managed by the cybersecurity team 'bi0s'. Register at the site <https://junior.inctf.in> before September 25.
