EVALUATION SCHEME AND GRADING SYSTEM

R.13 Assessment Procedure

R.13.1 The academic performance of each student in each course will be assessed on the basis of Internal Assessment (including Continuous Assessment) and an end-semester examination.

Normally, the teachers offering the course will evaluate the performance of the students at regular intervals and in the end-semester examination.

R.13.2 In theory courses (that are taught primarily in the lecture mode), the weight for the Internal Assessment and End-semester examination will be 50:50. The Internal assessment in theory courses shall consist of at least two periodical tests, weekly quizzes, assignments, tutorials, viva-voce etc. The weight for these components, for theory-based courses shall be 20 marks for the Continuous assessment, comprising of Quizzes, assignments, tutorials, viva-voce, etc. and 15 marks each for both the Periodical Tests.

At the end of the semester, there will be an end-semester examination of three hours duration, with a weight of 50 marks, in each lecture-based subject.

R.13.3 In the case of laboratory courses and practical, the relative weight for internal assessment and End-semester examination will be 80:20. The weight for the components of internal assessment will be decided by the course committee/class committee at the beginning of the course.

Evaluation pattern for course having both Theory and Lab components:

Courses having only one hour per week for lecture/tutorial, be treated as a Lab. course, for evaluation purposes; and evaluation pattern will be 80 marks for continuous assessment of lab work and 20 marks for end-semester lab examination.

Courses having two hours per week for theory and/or tutorials, be given a weight of 60 marks and 40 marks for the Theory and Lab components, respectively; The Lab. component evaluation will be based on continuous evaluation, without any end-semester practical evaluation. 10 marks will be for continuous assessment of the theory portion, 10 marks for each of the two periodical tests, 30 marks for the theory end-semester examination and 40 marks for continuous assessment of lab work and

Courses having three hours per week for theory and/or tutorials, be given a weight of 70 marks and 30 marks for the Theory and Lab components, respectively; The Lab component evaluation will be based on continuous evaluation, without any end-semester practical evaluation. 15 marks will be for continuous assessment of the theory portion, 10 marks for each of the two
periodical tests, 35 marks for the theory end-semester examination and 30 marks for continuous assessment of lab work.

R.13.4 It is mandatory that the students shall appear for the end-semester examinations in all theory and weight courses, for completion of the requirements of the course. Those who do not appear in the end-semester examinations will be awarded ‘F’ grade, subject to meeting the attendance requirement.

At the end of a semester, examinations shall be held for all the subjects that were taught during that semester and those subjects of the previous semester s for which the student s shall apply for supplementary examination, with a prescribed fee.

R.13.5 PROJECT WORK: The continuous assessment of project work will be carried out as decided by the course committee. At the completion of the project work, the student will submit a bound volume of the project report in the prescribed format. The project work will be evaluated by a team of duly appointed examiners.

The final evaluation will be based on the content of the report presentation by student and a viva-voce examination on the project. There will be 40% weight for continuous assessment and the remaining 60% for final evaluation.

If the project work is not satisfactory he/she will be asked to continue the project work and appear for assessment later.

**R.14 PUBLICATION / INTERNSHIP**

R.14.1 All students, if they are to be considered for award of the Degree at the time of graduation, are required to have published ONE paper in Scopus-indexed Journal/Conference.

R.14.2 Additional 5-10 marks will be awarded for each Publication, subject to a maximum of ONE paper per semester.

The additional marks shall be awarded in the semester in which the paper is published or accepted for publication, if applied for, within 10 days of the publication of results of the concerned semester. The additional marks can be awarded to any course(s) where the student has to improve his/her grade.

R.14.3 All publications shall be in Scopus-indexed Journals/Conferences and shall be as per the guidelines prescribed by the University.

R.14.4 Students who have undergone Internship at reputed organizations or National / International Institutions, with the prior approval of the concerned Departmental Chairperson
and the Head of the School, may be considered for waiver of the requirement of publication, for the award of Distinction. However, the decision of the Departmental Chairperson and the Head of the School, in this regard, shall be final.

Students of the PG PROGAMMES IN Fine Arts, Visual Media and Corporate Communication, who have produced a Project-output like Video Production/Animation/Portfolio/Graphic Output/Feature/Documentary/Programme etc. at the end of the programme, can be considered for waiver of the requirement of one publication for the award of the Degree, provided these outputs are judged and approved by a panel consisting of at least one industry / Academic External Expert identified by the Department.

R.16 Grading

R.16.1 Based on the performance in each course, a student is awarded at the end of the semester, a letter grade in each of the courses registered.

Letter grades will be awarded by the Class Committee in its final sitting, without the student representatives.

The letter grades, the corresponding grade points and the ratings are as follows:

<table>
<thead>
<tr>
<th>Letter Grade</th>
<th>Grade Points</th>
<th>Ratings</th>
</tr>
</thead>
<tbody>
<tr>
<td>0</td>
<td>10.00</td>
<td>Outstanding</td>
</tr>
<tr>

<td>attendance</td>
</tr>
<tr>
<td>I</td>
<td>0.00</td>
<td>Incomplete (awarded only for Lab</td>
</tr>
<tr>
<td></td>
<td></td>
<td>courses/Project / Seminar)</td>
</tr>
<tr>
<td>W</td>
<td></td>
<td>Withheld</td>
</tr>
</tbody>
</table>
R.16.2 ‘FA’ grade once awarded stays in the record of the student and is replaced with the appropriate grade when he/she completes the course successfully later.

Students who have secured an ‘FA’ in a course must re-register for the course or register for the course, if offered, under run-time re-do mode.

R.16.3 A student who has been awarded ‘I’ Grade in a Lab course, due to reasons of not completing the Lab., shall take up additional Lab. whenever offered next and earn a pass grade, which will be reflected in the next semester’s grade sheet.

The ‘I’ grade, awarded in a Project/Seminar course, will be subsequently changed into appropriate grade, when the student completes the requirement during the subsequent semester. If he/she does not complete it in the next semester, it will be converted to ‘F’ grade.

R.16.4 A student is considered to have successfully completed the course and earned the credit, if he/she scores a letter grade ‘P’ or better in that course.

R.21 Semester Grade Point Average (SGPA)

On completion of a semester, each student is assigned Semester Grade Point Average (SGPA) which is computed as below for all courses registered by the student during that semester.

\[
\text{Semester Grade Point Average} = \frac{\sum (C_i \times G_{pi})}{\sum C_i}
\]

where \(C_i\) is the credit for \(i\)th course in that semester and \(G_{pi}\) is the grade point for that course.

The summation is over all the courses registered by the student during the semester, including the failed courses. The SGPA is rounded off to two decimals.

R.22 Cumulative Grade Point Average (CGPA)

The overall performance of a student at any stage of the Degree programme is evaluated by the Cumulative Grade Point Average (CGPA) up to that point of time.

\[
\text{Cumulative Grade Point Average} = \frac{\sum (C_i \times G_{pi})}{\sum C_i}
\]

where \(C_i\) is the credit for \(i\)th course in any semester and \(G_{pi}\) is the grade point for that course.

The summation is over all the courses registered by the student during all the semesters up to that point of time, including the failed courses. The CGPA is also rounded off to two decimals.

R.23 Ranking
The ranking of the students in a batch at any intermediate or final stage is based on CGPA. Only those students who have passed all courses up to that stage in the first attempt are considered for ranking. Students are eligible for final ranking, only if the programme is completed within the normal duration, i.e., within two years from joining the programme.

R.24 Classification of successful candidates:

R.24.1 A student shall be considered to have successfully completed the programme, if he/she has:

i) registered and successfully completed all the core courses, electives and projects as mentioned in the curriculum;

ii) earned the required minimum number of credits as specified in the curriculum corresponding to the programme, within the stipulated time;

iii) published a paper at a Scopus-indexed Journal/Conference.

R.24.2 Candidates who have successfully completed the programme, within a period of four semesters from entering the programme, shall be classified as follows:

Candidates securing a CGPA of 8.00 and above – FIRST CLASS WITH DISTINCTION *

Candidates securing a CGPA between 6.50 and 7.99 – FIRST CLASS

and the same be mentioned in the Degree certificate;

(*subject to satisfying the condition mentioned at R.14.1 and having passed all the courses, in the first attempt, in four semesters, from the date of joining the programme)

If the programme is completed after four semesters of study, the candidates securing even a CGPA of 8.00 and above, shall be classified to have completed the programme, only with FIRST CLASS.
**Course Objective:** The course will provide students with the opportunity to critically analyze the influence of the mass media on politics, politics on the media, and the impact on society to make them engaged media practitioner with political information.

**Course Outcome:** *By the end of the course the students will be able to:*

1. Comprehend and critically analyze the development of media and culture from a sociological perspective.
2. Situate contemporary phenomena within the broader problematic arena of modernity.
3. Identify social and political dimensions within contemporary media artefacts.
4. Make imaginative and critical use of ideas and concepts to develop arguments.
5. Demonstrate the ability to apply concepts to the analysis of case studies in India and the international scene as a ‘media literate’ person.

**UNIT 1**
Role of media in the democratization process. Tracing the roots of democracy, political thought and media. Modern day threats to democracy – media ownership, corporate interference and state control mechanisms. Freedom of expression and media in transition.

**UNIT 2**
Comparative politics and ideology, introduction to political socialization - Sources and effects. The roles of media in democracies and authoritarian regimes, Redefinition of media, additional responsibilities for the media, Advocacy Journalism, Muckraking, Comparative socio-political perspective of media as a political actor.

**UNIT 3**
Media and Politics – social perspectives around the World: Political parties, electoral processes and media debates, political campaigns, media coverage and analysis. Europe, Americas, Africa, Asia, Australia and Middle East.

**UNIT 4**

**UNIT 5**
Media and Politics – social perspectives around the World: Social media tools: Online political presence. Gender representation of political actors and audiences in online political space.

<td>4 0 0 4</td>
</tr>
</tbody>
</table>

**Course Objective:** The course will advance education in and around the principles of ethical journalism. It will deal with myriad range of ethical and legal issues pertinent to various aspects of the media, which will help them to encounter in their professional lives with moral problems and dilemmas if they have any. This course will question and critique the nature of ethical, legal and moral discourse pertaining to professional communication.

**Course Outcome:** *By the end of the course the students will be able to:*

1. Understand how Indian media laws and regulations compare with those of other nations
2. Understand how media policies and regulations enable or constrain effective media environments
3. Understand the obligations and rights of media practitioners in the execution of their duties
4. More skilled in critical thinking and case analysis
5. Appreciate the complex issues associated with media regulation
6. Understand changing media landscapes and their possible legal implications and ethical approaches

**UNIT 1**
Media laws Focus: Journalism  
Constitutional provisions and guarantees in various countries.  
Media ethics Focus: Philosophy of ethics  
Theoretical background for ethics – deontological theories vs. teleological theories. Moral development and journalism. Moral Justification for journalism.

**UNIT 2**
Media Law Focus: Freedom of Expression

Media Ethics Focus: War Reporting
Censorship. Fairness and Balance. Truth and Objectivity.

UNIT 3
Media Law Focus: Rights and duties

Media Ethics Focus: Plagiarism, Whistle blowing.

UNIT 4
Media Ethics Focus: Reporting Diversity
Ethics for - investigative journalism, covering communal disputes, natural calamities, ethnic conflict and reporting gender. Sexuality, age and disability

Media Laws: A discussion on evolving laws related to LGBT

UNIT 5
Media Ethics Focus: Evolving code of ethics
The changing roles of journalism and journalists - Wikileaks, whistleblowers, citizen journalism and multimedia storytelling. Cross-cultural global perspectives on ethics--feminist, post-modern, communitarian and post-colonial.

Media Laws: Emerging cyber laws and broadcast regulations in India.

18CMJ503 Communication Research 4 0 0 4

Course Objective: To prepare the students with the basic knowledge of applying media research methods as an academic and media industry researcher. The course is of theoretical and application value.

Course Outcome: By the end of the course the students will be able to:

1. Demonstrate knowledge of research literacy in terms of ontology, epistemology, and methodology.
2. Demonstrate a working knowledge of the theories and frameworks through which media are analyzed and understood
3. Develop an understanding of media industries and institutions, particularly the role that research plays within the knowledge economy and future career development
4. Demonstrate an understanding of the significant risk and ethical issues raised by the conduct of media research
5. Develop a high level of written and oral communication skills

18CMJ504 Film Studies: Theory and Analysis 2 0 2 3

Course Objective: To develop a critical understanding of cinema and films globally. To familiar the students with the different film style, its language.

Course Outcome: By the end of the course the students will be able to:

1. Understand the idea of film as an art form and the essentials of film style and know the basics of the language of film in order to discuss and write meaningfully about movies.
2. Demonstrate a familiarity with the collaborative processes through which movies are constructed.
3. Understand the history and breadth of narrative theory in film studies
4. Apply the theories in practical analyses of films.
5. Formulate critical arguments with sound reason and logic

UNIT 1

UNIT 2
Critical Approaches to Film: Authorship – Reflections on Authorship, Post-structuralism and Recent Developments. Genre – Film Genre and Narrative, Film genre, society and history, Contemporary Film Genres and Postmodernism. Stars – The Real Person, Economic capital/commodity, Role character and Performance, Image, Representation and Meaning. Meaning and Spectatorship - The evolution and rise of Film Movements - Experimental Film.

UNIT 3
Film Narratology: The semiotics of narrative, Film as a narrative art, Contemporary models of formal structure, Plot and sub-plot analysis, Semantic and syntactic approaches, The problem of point-of-view, Focalization and filtration, Narration in film, Types of filmic narrator, character narration, Gender in voice-over narration, Unreliability, The cinematic narrator, Enunciation and cinematic narration, Cognitive approaches to narration, Recent theories of the cinematic narrator and Tense.

UNIT 4

UNIT 5
Film Analysis and Appreciation – Choice of shots, camera movement, angle, design and expression – Technical film review and analysis – Approaches to Research in Film Studies.

18CMJ505 Contemporary Issues: I 0 0 1

Course Objective: To give the students the political landscape of the country and the media effect on it, what are the challenges in the way of media houses.

Course Outcome: By the end of the course the students will be able to:

1. Understand what news is and how to evaluate and analyze it.
2. Understand the political landscape of the country and the media effect on it.
3. Identify and Understand how the world is looking at us by analyzing international media coverage on Indian news
4. Understand the influence of advertisers on Disseminating news.
5. Identify the emerging trends in sensationalizing the news.

REFERENCES
1. Newspapers: The Hindu, The Times of India, The Indian Express, The Economic Times,
5. Magazines: - Outlook, India Today, Sportstar, TIME

Evaluation Pattern R.13 & R.16
Course Objective: To understand as a media person the development and environmental concerns faced globally, and as a responsible journalist measures to be taken for sustainable journalism.

Course Outcome: By the end of the course the students will be able to:

1. Understand the Importance, Factors affecting the Climate Change on the Global Environmental Issues, Principles and Milestones for Sustainable Development.
2. Analyze the Environmental Factors Facing the International Community with respect to Global Changes and their Impact on the Domestic Scenario.
3. Create an Impact of Economic Growth on the Environment and thereby providing an understanding on the Development and Environmental Concerns in relation with other Countries.
4. Comprehend upon the Different Environmental Movements in India and thereby providing an Insight in to the Industrialized Economies and Environmental Movements across the Continent.

UNIT 1
Perspectives on global environmental issues: Climate change. Global dimming.

UNIT 2
Environmental concerns in the international and domestic scene- Media coverage. Public opinion.

UNIT 3
The impact of economic growth on the environment: Economic liberalization and environmental journalism. Development issues in the media

UNIT 4
Environmental movements in India and the world. Analyze what groups are most affected by global environmental challenges

**Course Objective:** The course will equip students with the skills of writing news reports and edit the same. The course seeks to develop the nose for news as a reporter and an editor.

**Course Outcome:** *By the end of the course the students will be able to:*

1. Understand the concept of news and how to write it in a manner that interests the reader
2. Understand that news is not rumor or hearsay and that the credibility of a news report depends on proper attribution
3. Develop the art of developing contacts and use them as a source for information as well as cross-checking information
4. Become well-versed in the use of Internet, news reports, studies and surveys for background research of the event they are covering
5. Edit assignments helped them develop better language skills and making official and other press releases more readable by re-writing them with clarity and in an interesting manner

**UNIT 1**
News: Accuracy, Objectivity and Fairness, Writing the lead, News story structure, Hard and Soft news.

**UNIT 2**
Nose for news, story ideas, covering events and speeches. Converting news articles into long features. Book reviews.
UNIT 3
Interview techniques – profile interviews, getting the most out of interviews – preparing for interviews.

UNIT 4
Editing: Introduction to News Editing: What Editors do; Style and Mechanical Mistakes; Editing for Grammar and Editing for Style, Rewriting

UNIT 5
Business reporting – budgets, stock markets, currency movements

Evaluation Pattern R.13 & R.16

Course Objective: To equip the students with the art and idea of application of graphic design in the day to day. And finally the course will nurture the students and make them industry ready with the technical skills of graphic design.

Course Outcome: By the end of the course the students will be able to:

1. Use graphic design for contemporary global issues
2. Assess, predict, and articulate the influence and importance of graphic design
3. Acquire and demonstrate competency in technical skills applicable to graphic design
4. Demonstrate the ability to use design thinking strategies.
5. Understand the relationship of graphic design to other disciplines and to society

UNIT 1
Introduction: Define fundamentals of design like point, line, space, shape, size and proportion, colour, tone, texture. Identification of design and graphic design. Select appropriate colour scheme for intended use. Colour: Colour theory-hue, shade, tint.
Color wheel - knowledge of various types of colour schemes-colour combination. Selection of colour, emotional appeal of colour, and response of colour.

UNIT 2
Principles of graphic design: Appreciate composition in design -Effective composition in design. art work – physical characteristics of artwork. Originals: Types of originals - Line original, Continuous original. Typeface anatomy – Variables of typefaces, Styles & six family of types,
Legibility and readability of types - Selection of typefaces /fonts suitable to the subject and relation between type face and product. Printing process and paper/substrate - Creation of symbol & slogan - Knowledge of logo, monogram, trademark, copy writing.

UNIT 3
Layout - Purpose, importance and function of layout - types of layout, rough and finished layout - composition methods- arrangements of illustration, text matter, logo (symbol), slogan, address- Available Indian paper sizes, choosing a suitable paper: characters, paper varieties, finishes - Various imposition schemes, sheet work, half sheet work, types of folding - dummy preparation and its importance. Printing Inks – base ink formulation –specific properties-drying mechanism – ink suitability for printing

UNIT 4

UNIT 5

18CMJ513 Advanced Research: Qualitative Approaches 4 0 0 4

Course Objective: The course will teach students to apply practical skills for evaluating and writing qualitative research studies and develop the ability of critical thinking skills and reflexive knowledge for assessing ideas, acquiring research skills, synthesizing knowledge across disciplines.

Course Outcome: By the end of the course the students will be able to:
1. Understand the methods of qualitative research in media and communication.
2. Identify and discuss the ethical issues associated with qualitative research and analyse events in their natural settings
3. Develop and apply practical skills for evaluating and writing qualitative research studies.
4. Cultivate the ability of critical thinking skills and reflexive knowledge for assessing ideas, acquiring research skills, synthesizing knowledge across disciplines and applying academic knowledge to self-life problems.
5. Apply the general principles of qualitative analysis to evaluate major works in media and communication and how audiences visualize media contents.

UNIT 1
Introduction: A qualitative frame of mind. Historical roots of qualitative research.

Methodology, methods and tools in qualitative research: Research design, population, sampling, formulation of conceptual model. Data collection techniques- Memos, diaries, recording, transcripts. multiple sources of data. Validity, reliability, rigour and credibility in qualitative research.

UNIT 2

UNIT 3

Writing qualitative research: presentation of results, pragmatic function of writing, theories as a form of presentation, tales from the field, reflexive function of writing. descriptive summaries-The ‘Insider view’

UNIT 4
Discussion: Notes on love in a Tamil family. Trawick, M.
Screening culture, viewing politics. Mankekar, P
Narrative inquiry: stories lived, stories told. Reflexive knowledge.
Ethnographic journalism: Media ethnography
Discussion: Maximum City: Mumbai. Mehta, S.

18CMJ616 Advanced Reporting for Multimedia Platforma and Editing 1 1 6 4
Course Objective: Course will help students learn New Media literacy, demonstrate visual and analytical competence through use of modern technology to produce and distribute multimedia stories.

Course Outcome: By the end of the course the students will be able to:

1) Learn the concept of writing/preparing news reports for multiple media platforms - print, online news, videography and photography. The course helps the students to develop skills in their chosen field.
2) The emphasis on print journalism and the discipline involved in writing will help students to pursue whichever line in the world of media they plan to pursue – TV, Radio, Advertising, Public Relations, Online Media

3) Gain confidence in meeting competent sources for news gathering from various ‘Beats,’ ranging from government officials to man on the street and developing contacts to gather information for the news reports.

4) Editing exercises in print help understand the importance of writing in a clear and concise manner without grammatical and syntax errors.

5) Develop skills in the art of interviewing newsworthy personalities that the readers would want to read about.

6) Understand the importance of keeping up to date with information in various topics of news interest including by following trending stories in the social media and distinguish between News and ‘Fake News.’

UNIT 1

Honing the skills acquired in the previous semesters in Reporting for print media and News Photography to write a detailed news report along with photograph to go with the story, plus editing (press releases, statements, speeches)

UNIT 2

The importance of developing contacts in various fields by interacting with officials, experts, analysts, observers in various fields ranging from Education and Health, Crime and Politics, business and industry, arts, culture, films and fashion.

UNIT 3

Interviews & Videography Group assignment: Doing a human interest story for both print and broadcast, plus editing.

UNIT 4

Importance of verifying facts on trending stories in the social media and writing a report for the print media based on an issue of public interest.

UNIT 5

Write a blog on a topical issue based on observations, research and interviews

Evaluation Pattern R.13 & R.16

Course Objective: To develop an understanding of writing, reporting and producing news stories and also learn the use of NLE technique for packaging for producing news stories.

Course Outcome: By the end of the course the students will be able to:

1. Understand the technological development affecting modes and methods of reporting.
2. Demonstrate a familiarity to properly use and operate the studio and filed equipment and use appropriate NLE technique for packaging.
3. Demonstrate critical thinking skills necessary to approach the news story, breaking news story, interview, news feeds and P2C.
4. Develop an understanding of writing and news story structure that is sufficient to write for broadcast media.
5. Read news for television using teleprompter.

UNIT 1

UNIT 2

UNIT 3
Approaching news – news sources and values – news conferences – the changing brief – copy tasting – ways of approaching the same story – preliminary research – calling up –treatment and structure – back grounding and further research – lending focus – lending focus to a breaking news story – setting up the interview – questions and interviews – visuals and actuality – organizing the sound
UNIT 4

UNIT 5
News Reading – script writing for news readers – converting agency copies to broadcast style – Reading with the teleprompter – different presentation styles based on the nature of stories.

Evaluation Pattern R.13 & R.16

**Course Objective:** To teach the students the mechanics of creative copywriting for print, web and broadcast advertisements and make them industry ready.

**Course Outcome:** *By the end of the course the students will be able to:*

1. Understand the role of a creative brief and its effects on the artistic expression in an advertisement pertaining to Print Media.
2. Analyze and visualize using the creative pyramid as a guide to creative execution of a print advertisement.
3. Create values to brands through creative marketing ideas by applying the mechanics of copywriting for print advertisements.
4. Provide an insight into E-Marketing and Web-based Advertising by means of applying theoretical framework pertaining to Online Media.
5. Comprehend the role of Internet marketing and its relevance to today’s business scenario.

UNIT 1
Opening perspectives on advertising: To understand the nuances of print, web, radio and television as an advertising medium.
Creative Strategy: Print- Creative brief. Message theme. The concept and elements of print advertisement design.
Introduction to the digital advertising space: The online advertising eco system.
Practice: Designing the print advertisement. Concept, Visualization and campaign continuity.
Ideation and developing concepts. Developing radio and television concepts- storyline

UNIT 2

UNIT 3

UNIT 4
Radio commercial production: Recording a radio spot. To execute the radio script to a recorded spot/ jingle/ dialogue/drama. Production process. Cutting the spot: Words, SFX, Music, Voice-overs.
Practice: Record the radio commercial based on the brief, using any method-jingle, dialogue, spot, announcement, explaining the format used.

UNIT 5
Mechanics of developing the storyboard.
Television commercials elements- Video, audio, music
Shot information; Distance- camera to image : LS, FS, MS, WS, CU, ECU, XCU
Camera movement: Zoom in and out. Dolly in and out. Pan right and left
Shot transition: Cut, dissolve, lap superimposition, wipe
Practice: To develop a television script and storyboard depicting the elements, shot information, camera movement and shot transition.

Evaluation Pattern R.13 & R.16

| Course Objective: To develop the basic understanding of research by developing a feasible topic, literature review and methodology. |
| Course Outcome: By the end of the course the students will be able to: |
| 1. Understand the ontology, epistemology and methodology pertaining to his/her research |
| 2. Develop a feasible topic, literature review and identify theoretical and methodological framework. |
| 3. Build the foundation for getting his/her research publication ready |
The student is exposed to a theoretical quantitative and qualitative research process in the first semesters. As a follow through practical application of research, he/she ideates individually on a preferred area of research interest related to any field of Mass Communication within the traditions of social and behavioural sciences. A Research Guide is assigned to each student to help him/her through the process of preparing a Research Proposal. A one credit internal research review is undertaken at this phase, and the student is expected to have the ontology, epistemology and methodology pertaining to his/her research proposal in place.

This research review gears the student towards building the foundation for getting his/her research publication ready. The evaluation by the review committee will be based on parameters such as feasibility of topic, literature review and identification of theoretical and methodological framework.

Course Objective: The student will learn the art of presenting a complete research paper. They are expected to develop a manuscript for getting his/her research publication ready.

Course Outcome: *By the end of the course the students will be able to:*

1. Understand the methods of data collection pertaining to his/her research
2. Analyze the data collected and describe the methods adopted.
3. Develop a manuscript for getting his/her research publication ready

As a follow-up on Research Review I, a second internal research review is undertaken at this phase, and the student is expected to have completed the data collection and analysis, resulting in a rough draft of an article for journal publication. The student should identify a possible SCOPUS journal and format the article according to the journal's style sheet. The evaluation for the review will be based on the strength of data collection and analysis techniques.

Evaluation Pattern R.13 & R.16

| 18CMJ604 | Advanced Photography | 112 | 3 |

Course Objective: The course will teach students the various facets of photography, the principles and rules of photography composition in various lightning conditions.

Course Outcome: *By the end of the course the students will be able to:*

1. Understand how photography works and the pros and cons of digital photography
2. Apply the principles of lighting and the mechanics of exposure to produce quality photography.
3. Select and use photographic equipment and technologies appropriate to the task
4. An understanding of the industrial and commercial applications of photographic techniques.
5. Able to work independently or collaboratively to achieve stated goals.

UNIT 1

UNIT 2

UNIT 3
Lighting Principles and equipment – Basic characteristics of lighting, Types of lighting, Lighting equipments, Practical lighting problems. Emerging approaches to lighting.

UNIT 4
Daylight Photography – How to use light, Shooting in Bright sunlight. Flash Photography – Creating own light, Flash, Types and sizes, Exposure control. The plus and minus of digital technology. Shooting in harsh daylight/top light. Foreground / background techniques

</table>

Course Objective: To develop the skill of writing features to hold the interest of the reader and gain understanding of various issues.

Course Outcome: By the end of the course the students will be able to:

1. Distinguish between routine news reporting and writing features, which are also called non-fiction journalism, by writing on issues of interests in an entertaining manner.
2. Get involved in leg work, visits, interviews and research that takes them to places away from the campus to gather materials for the story.
3. Learn to structure the story, a very important factor of feature stories, to hold the interest of the reader
4. Cover seasonal events and festivals which provide occasion to write colour pieces helped in improving skills in non-fiction writing.
5. Undertake assignment of special interest features, like women’s issue, gender parity, fashion and real estate to help gain better understanding of the issues.

UNIT 1

UNIT 2
Reporting for Feature Stories; Sources for News Features; Researching for a Feature Story.

UNIT 3
Interview techniques for Feature Stories – types of interviews.
UNIT 4
Writing a Feature Story; Language of Features; Types of Features. Photo features.

UNIT 5
Introduction to News Editing: What Editors do; Style and Mechanical mistakes. Common Errors in Editing

<th>Brand Management</th>
<th>3 1 0 4</th>
</tr>
</thead>
</table>

Course Objective: To teach the students the basic principles and concepts of branding and its ethical issues, product positioning and product placement.

Course Outcome: By the end of the course the students will be able to:

1. Understand key principles of branding
2. Understand and conduct the measurement of brand equity and brand performance
3. Practically develop a brand, including positioning and communication
4. Develop an argument and express them clearly in both written and oral communication
5. Consider ethical issues in the management of brands

UNIT 1
Case examples and video screening: Analyze the logo concept, design, brand positioning, brand personality, brand image, competition and communication for a national and international brand

UNIT 2
Product placement and co-branding strategies. Visibility. Appropriateness. To understand the significance of subtle brand messages and association with the characters in the film.
The concept of brand equity. Customer based brand equity. Sources of brand equity. Using cause marketing to build brand equity. The ‘green’ brand.

Film screening and analysis: In-film branding and co-branding strategies.

UNIT 3
Brand repositioning: The significance of positioning in the competitive market and the strategies for repositioning.
The concept of brand equity: Customer based brand equity. Sources of brand equity. Using cause marketing to build brand equity.
Case study: Positioning and re-positioning strategies. National and global FMCG and luxury brands.

UNIT 4
Brand personality: Celebrity and brand personality. Definitions to brand personality. Human-centered and emotion centered.
Design in branding: Consistency and change. Product design– logo, colour, name, typeface, graphic motifs, visual style, packaging, sound, smell, taste and touch.
Merchandise environments: Signage, A study of store-design highlighting the interplay of signs, fixtures, lighting and product displays in visual merchandising.

UNIT 5
Creating a brand: Launching new brands. To develop brand strategy and communication. Service brands. Luxury brands. FMCG branding.
Branding commodities: To focus on the shift from loose to branded products and the nuances of branding in the commodity market.
Retail branding: To study the dynamics of branding in rural and urban retail contexts. To provide an understanding of how brand management decisions are made in practice, with attention to real-world constraints.
Case study discussions.
